Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2016 - December 31, 2016

Filing Confirmation Number: 0007601380

Filing Deadline: March 23, 2017

FRN: 0001568898

Filing Date: 12/27/2016 05:28 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Bristol Bay Cellular Partnership

Brand Names: Bristol Bay Cellular
BBCP

PO Box: 259

Street Address: Main Street, #1

City: King Salmon

State: AK

Zip Code: 99613

Contact Name: Tanya Moorcroft

Contact Phone: (907) 246-3403

Contact Fax:

Contact Email: tanyam@bristolbay.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Lukas, Nace, Gutierrez & Sachs, LLP
PO Box:
Street Address: 8300 Greensboro Drive, Suite 1200
City: McLean
State: VA
Zip Code: 22102

Contact Name: Pamela L. Gist, Esq.
Contact Phone: (703) 584-8665
Contact Fax: (703) 584-8696
Contact Email: pgist@fcclaw.com

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

Yes

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: <http://www.bristolbay.com/cellular.html> and
<http://www.bristolbay.com/uploads/8/2/1/8/82184268/hac2017.pdf>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Compliant handset models are publicly identified for

consumers and audiologists. Compliant models are listed on the company web site, and retail salespeople are trained to assist with compliant digital wireless phones. Compliant handsets are available for testing from live phone displays in retail locations. Written materials and promotional literature are provided at the point of sale and on the website, addressing the needs of individuals with hearing disabilities. Consumers are given a thirty day trial period within which to try out digital wireless phones to determine whether they will work properly with their hearing aids.

Methodology for Functionality Levels

HAC mobile units are categorized by price per unit. High End Phones, \$200 and up, generally have advanced features such as a camera, Bluetooth, and Internet access capability, increased storage and longer battery life. Mid-Tier Phones, \$150 to \$200, may have camera, Bluetooth, and Internet access capability, but older or less stylish. Low End or Entry level phones, less than \$150, offer basic wireless features, may or may not have a camera, Bluetooth, and Internet access capability, and generally are heavier and lack such features as MP3 players and expandable memory.

Report Remarks

Bristol Bay Cellular does not operate voice communications network facilities utilizing WCDMA, 700 MHz, AWS, WiFi, WiMax or LTE air interfaces.

You have reported the following handset model summary information.

Total number of handsets offered: 11

Air Interface	Fully Hearing Aid Compatible Number Percent		Acoustic Coupling Compatible Only Number Percent		Non-Compliant Handsets Number Percent		Total by Air Interface
GSM	9	82%			2	18%	11
Wi-Fi	4	80%			1	20%	5

Handset 1: Apple iPhone 6
